

CALL FOR PAPERS

16th European Seminar on Bayesian Econometrics

Luiss University of Rome, Italy
27–28 August 2026

The 16th European Seminar on Bayesian Econometrics¹ (ESOB, <https://esobe.org>), one of the major conferences in econometrics worldwide and the primary event on Bayesian econometrics in Europe, will be hosted by the Department of AI, Data and Decision Sciences at Luiss University of Rome on the 27–28 August 2026.

The scientific program includes presentations by the following keynote speakers.

CONCEPTION AUSIN	RADU CRAIU	PETROS DELLAPORTAS
<i>Universidad Carlos III de Madrid</i>	<i>University of Toronto</i>	<i>University College London</i>

You are invited to submit a paper for the contributed **oral** sessions as well as the **poster** sessions. Submissions from all fields of Bayesian econometrics (macro, micro, and financial) are welcome, as well as papers on Bayesian theory, computing, and machine learning. Ph.D. students and researchers who received their Ph.D. after August 2021 may apply for a special “young researchers” (or “early-career”?) session. Researchers selected for this session will receive a travel support grant of up to EUR 300 (or not mention it?).

INSTRUCTIONS:

- Submit a full working paper or an extended abstract to esobe2026@gmail.com
- Enter “Submission (oral)” or “Submission (poster)” in the subject line and include your contact information in the email
- To be considered for the “young researchers” session, please indicate this in your submission and attach a CV
- Submission deadline: **27th April 2026**
- Notification of acceptance: late May 2026
- Registration opening: early June 2026

Information on the conference, travel, and accommodation is available on the ESOBE 2026 website: <https://esobe2026.github.io>. For any further information, please email esobe2026@gmail.com.
